Students attending SD Mines often live in apartments so that costs can be shared. The apartments range in size from efficiency (a one-room apartment) to four-bedroom apartments or rental houses. An efficiency apartment will cost around \$400 per month; a four-bedroom house will cost approximately \$1000-\$1500 for one month of rent. These amounts do NOT include the additional costs for utilities.

When obtaining an apartment, an advance deposit of one or two months of rent is usually required. The further away an apartment is from campus, the less expensive. To find satisfactory off-campus housing, admitted students should arrive in Rapid City one to two weeks before classes begin.

### **Students ONLY**

Space may be available in the college residence halls for single students or students whose spouses are not in the US. Married student housing is **not** available on campus.

If interested in staying in a residence hall, you should submit an online housing application. This can be found on the Residence Life Website <https://www.sdsmt.edu/ResLife/>. Here are a few items to keep in mind.

1. Residents are required to purchase a food service contract.
2. Applications must pay the required \$100.00 (US) deposit.
3. Temporary housing is not available on campus
